

CLAIMS

What is claimed is:

- 5 1. A vehicle cover system, comprising:
- removably attachable mating cover portions adapted to cover a vehicle, said
vehicle having a top, a bottom, opposing sides; a front end, and a rear end;
each said removably attachable mating cover portion removably attached to and
mating with at least one adjacent one of said removably attachable mating cover
10 portions;
- said removably attachable mating cover portions comprising:
- at least one substantially U shaped cover portion adapted to cover a portion
of said top and an adjacent portion of each of said opposing sides of said
vehicle;
- 15 front and rear end portions adapted to cover said front end and said rear end
of said vehicle, respectively;
- said at least one substantially U shaped cover portion having a length selected
from the group consisting of a first length, a second length, and a third length.
- 20 2. The vehicle cover system according to claim 1, wherein:
- said at least one substantially U shaped cover portion comprises at least one
substantially U shaped cover portion having said first length.

3. The vehicle cover system according to claim 1, wherein:
said at least one substantially U shaped cover portion comprises at least two
substantially U shaped cover portions, each having said first length.
- 5 4. The vehicle cover system according to claim 2, wherein:
said at least one substantially U shaped cover portion further comprises at least
one substantially U shaped cover portion having said second length.
- 10 5. The vehicle cover system according to claim 3, wherein:
said at least one substantially U shaped cover portion further comprises at least
one substantially U shaped cover portion having said second length.
- 15 6. The vehicle cover system according to claim 2, wherein:
said at least one substantially U shaped cover portion further comprises at least
two substantially U shaped cover portions, each having said second length.
- 20 7. The vehicle cover system according to claim 3, wherein:
said at least one substantially U shaped cover portion further comprises at least
two substantially U shaped cover portions, each having said second length.
8. The vehicle cover system according to claim 4, wherein:
said at least one substantially U shaped cover portion further comprises at least
one substantially U shaped cover portion having said third length.

9. The vehicle cover system according to claim 5, wherein:

said at least one substantially U shaped cover portion further comprises at least one substantially U shaped cover portion having said third length.

5

10. The vehicle cover system according to claim 6, wherein:

said at least one substantially U shaped cover portion further comprises at least one substantially U shaped cover portion having said third length.

10 11. The vehicle cover system according to claim 7, wherein:

said at least one substantially U shaped cover portion further comprises at least one substantially U shaped cover portion having said third length.

12. The vehicle cover system according to claim 4, wherein:

15 said at least one substantially U shaped cover portion further comprises at least two substantially U shaped cover portions, each having said third length.

13. The vehicle cover system according to claim 5, wherein:

20 said at least one substantially U shaped cover portion further comprises at least two substantially U shaped cover portions, each having said third length.

14. The vehicle cover system according to claim 6, wherein:

said at least one substantially U shaped cover portion further comprises at least two substantially U shaped cover portions, each having said third length.

15. The vehicle cover system according to claim 7, wherein:

5 said at least one substantially U shaped cover portion further comprises at least two substantially U shaped cover portions, each having said third length.

16. The vehicle cover system according to claim 1, wherein:

 said first length comprises a base length;
10 said second length comprises a fractional length of said base length;
 said third length comprises a fractional length of said second length.

17. The vehicle cover system according to claim 1, wherein:

 said first length comprises a base length;
15 said second length comprises a fractional length of said base length;
 said third length comprises another fractional length of said base length.

18. The vehicle cover system according to claim 1, wherein:

 said first third length is one-half of said second length.

20

19. The vehicle cover system according to claim 1, wherein:

 said vehicle has a lateral length;
 said first, second, and third lengths are lateral lengths.

20. The vehicle cover system according to claim 1, wherein said:

said front and rear end portions are substantially the same as one another.

5 21. The vehicle cover system according to claim 1, wherein said:

said front and rear end portions each have a length which is substantially the same.

22. The vehicle cover system according to claim 1, wherein said:

10 said front and rear end portions are different one from the other.

23. The vehicle cover system according to claim 1, wherein said:

said front and rear end portions each have a shape which is different one from the other

15 said front and rear end portions each have a length which is substantially the same.

24. The vehicle cover system according to claim 1, wherein said vehicle cover system covers said vehicle.

20

25. The vehicle cover system according to claim 1, wherein said vehicle has an elongated mid section.

26. The vehicle cover system according to claim 1, wherein said vehicle is from the group consisting of: recreational vehicles, campers, trailers, trucks, vans, automobiles, boats, and airplanes.
- 5 27. The vehicle cover system according to claim 1, wherein each of said removably attachable mating cover portions have seams.
28. The vehicle cover system according to claim 28, wherein said seams are reinforcing seams.
- 10 29. The vehicle cover system according to claim 1, wherein:
each of said removably attachable mating cover portions has opposing sides and a plurality of straps fastened to each of said cover portion opposing sides.
- 15 30. The vehicle cover system according to claim 29, wherein:
each of said straps has a loop.
31. The vehicle cover system according to claim 29, wherein:
each of said straps is adapted to attach a fastener thereto, which extends to and
20 is fastened to said bottom of said vehicle.
32. The vehicle cover system according to claim 1, wherein said removably attachable mating cover portions have zippers.

33. The vehicle cover system according to claim 32, wherein said removably attachable mating cover portions have edges and said zippers are fastened to said removably attachable mating cover portions at said edges.

5

34. The vehicle cover system according to claim 32, wherein each of said zippers are fastened to said removably attachable mating cover portions, in accordance with the same orientation.

Rule 1.126

10

35. The vehicle cover system according to claim 32, wherein each of said zippers are fastened to said removably attachable mating cover portions to fasten substantially clockwise facing said front of said vehicle.

36

15

~~35~~. The vehicle cover system according to claim 32, wherein each of said zippers are fastened to said removably attachable mating cover portions to fasten substantially counterclockwise facing said front of said vehicle.

37

~~36~~. The vehicle cover system according to claim 1, wherein each of said removably attachable mating cover portions have identifying indicia.

20

38

~~37~~. The vehicle cover system according to claim 1, wherein each of said removably attachable mating cover portions are color coded.

39
38.

The vehicle cover system according to claim 1, wherein each of said removably attachable mating cover portions have color coded identifying tags.

40
39.

5 The vehicle cover system according to claim 1, wherein each of said removably attachable mating cover portions have at least one vent.

41
40.

The vehicle cover system according to claim 1, wherein each of said removably attachable mating cover portions have at least one hole adapted to vent each of said removably attachable mating cover portions.

10

42
41.

The vehicle cover system according to claim 39, wherein each of said vents has a screen.

43
42.

15 The vehicle cover system according to claim 40, wherein each of said vents has a top, opposing sides, a bottom, and a cover fastened to said top and said opposing sides of said vent.

44
43.

The vehicle cover system according to claim 1, wherein said vehicle cover system is of flexible, water resistant, and ultraviolet resistant material.

20
